**Cutting edge
perfection.**

Make it your home. Strive for perfection in one go with the new Rotak lawnmowers. Extended grass combs cut close to the edge, and the precision blade delivers a clean cut while the optimised airflow collects up to 99% of all clippings.

BOSCH
Invented for life

A perfect lawn in one go.

Dreaming of a perfect lawn? We make your dream come true. Rotak's new, hardened precision blade enables cutting of all types of grass and the extended grass combs mow closer to the edge than any other mower; thus making extra trimming a thing of the past. At the same time, the optimised airflow effectively collects all clippings to leave your lawn neat and tidy and your terrace and house clean.

The cordless Rotak:

Stunning perfection at one glance.

Central height-of-cut adjustment

For quick and easy change of cutting height

Integrated handle & lightweight design

For easy transportation

Intelligent lithium-ion technology

36 V/4.0 Ah battery for long runtime (up to 450 m²). No memory-effect, no self-discharge, always ready to use

Powerdrive LI + system

For clean cut and up to 99% collection

Sharp steel blade

For the perfect cut

'Ergoflex System'

Ergonomically designed and adjustable handles to improve body posture and reduce muscle strain while mowing

Quick Click

For easy and fast assembly

Extended grass combs

Cut close to the edge of walls, flower beds and lawns

Typ	Rotak 32 LI	Rotak 32 LI High Power	Rotak 37 LI	Rotak 43 LI

PERFECT CUT

ADVANCED ERGONOMIC

Quick and easy battery change: the lithium-ion batteries are inserted from the front.

Safety key: you simply insert the key into the lock, turn it and then the mower can be started.

The corded Rotak: Perfection on offer.

PERFECT CUT

ADVANCED ERGONOMIC

Soft, treated rubberised wheels for smooth running through grass (with Rotak 40, 43 and 43 LI).

No need to tidy up.

Want to make your lawn look like in one of those home magazines? Featuring an innovative hardened precision blade, the new Rotak lawnmowers cut through grass like a knife through soft butter. Subsequently, the optimised airflow effectively collects the clippings to leave your lawn neat and tidy. With LeafCollect for Rotak 43/40 & Rotak 43 LI you can easily collect all kinds of leaves in the autumn; thus, making mowing an easier job than ever!

Ergonomically designed Ergoflex handles for effortless control.

Close to the edge.

Due to its innovative extended grass combs, this lawnmower is able to easily cut close to the edge of walls, flowerbeds and lawns. At first the low weight rubberised wheels run smoothly through the grass without compressing it, then its innovative extended grass combs guide the grass directly towards the mowing blade, providing a more thorough cut.

Grass raising elements guide the grass directly towards the mowing blade.

Intelligent lithium-ion technology from Bosch.

For more power and greater endurance – according to what is needed. Cordless tools from Bosch always draw the optimum amount of energy thanks to their intelligent electronic control system.

For demanding applications like cutting back hedges with big branch diameters – a lot of power is required. In easier applications, the runtime is what counts – for example when shaping and forming hedges and shrubs with many smaller diameter branches. Cordless tools from Bosch always draw the optimum amount of energy according to what is needed thanks to their intelligent electronic control system. The result: more power and, at the same time, greater endurance.

The latest generation of lithium-ion technology from Bosch – developed with the experience of 10 years of Bosch battery research.

The advantages of lithium-ion technology:

Maximum power.

When needed, more performance for jobs that require high power.

Maximum endurance.

Long runtime for jobs that require more endurance but less power.

Ready to use at any time.

Lithium-ion batteries are ready to use at any time. No memory effect, no self-discharge.

Long lifetime.

High-quality batteries with long lifetime. Electronic Cell Protection (ECP) to prevent overheating and overload.

Compact design.

Cordless tools with lithium-ion technology impress due to their compact design and low weight.
