Elixair® E200

E200 can be placed on a table or worktop, making it suitable for small spaces. The unit is effective, but as a smaller unit it is more suitable for cleaning the indoor air of smaller office rooms.

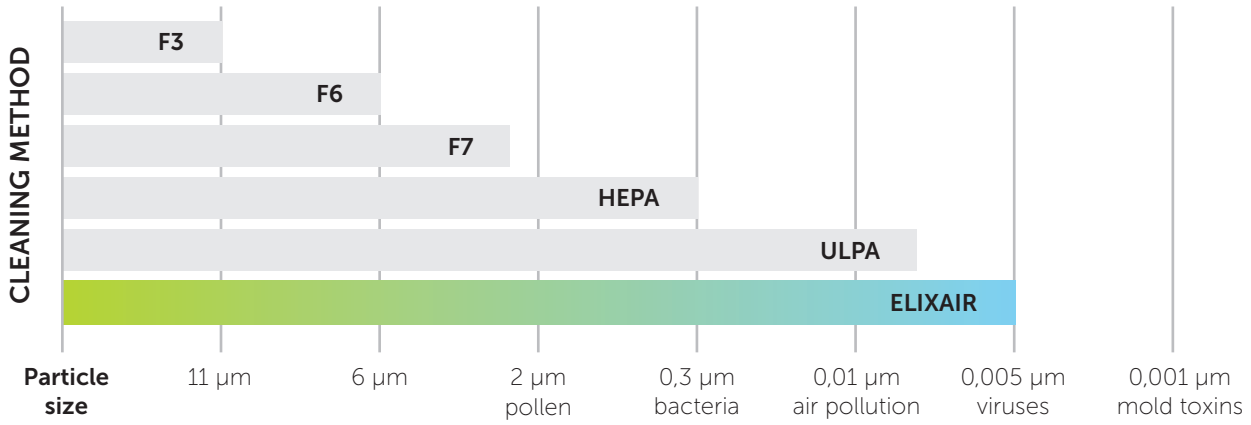

Technical information	Elixair® E200
Cleaning capacity	max. 90 m^3/h
Cleaning efficiency	94,0 %
Gas removal	Active carbon
Installation	Stand-alone
Fan speed	2
Dimensions (W x H x D)	490 x 140 x 245 mm
Weight	5 kg
Material	Plastic
Sound level	23–28 dB

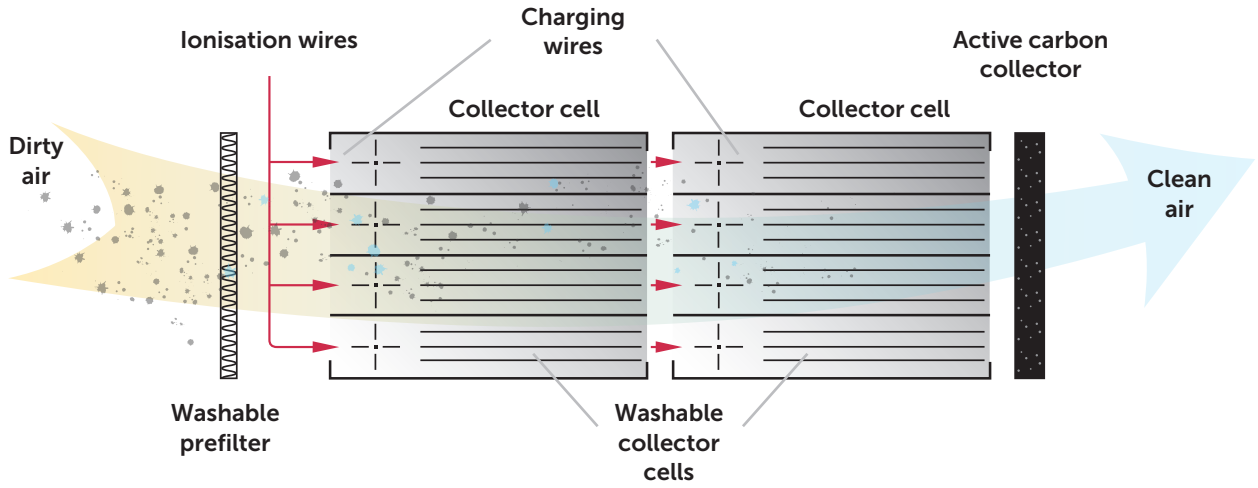

Elixair technology

– 4-step filtering system

OPERATING PRINCIPLE

The Elixair duct filter has a 4-steps filtering system. First, a prefilter captures the larger particles. Then, electronic collector cell collects the smallest of particles. Finally, the active carbon collector removes odours and gases.
